When I was young, I always loved both drawing and painting, but I could neither read nor write well. As a result, I didn't understand the lessons at school and got bad marks.

My parents thought that I wasn't very clever. For this reason, they took me to some tests. They discovered that I suffered from dyslexia which means it was difficult for my brain to read and spell. To help me, my parents asked a teacher to give me special lessons which made me have good results. Later, at school, I was better and did well in my exams.

Also, I got a prize for my art. Then, I decided that I would like to be an artist one day. Now, I volunteer at a charity for other children with dyslexia to offer help and teach them about art.
